

# ANNOUNCEMENT

**December 1, 2017**

Potable water served to the Town of Middlesex (NC PWS ID # 04-46-050) has been restored to capacity. Samples collected from locations within the system have been analyzed by a State Certified Laboratory and found to be free of coliform bacteria.

Based on these results and the continued presence of consistent pressure throughout the system, the **LOW PRESSURE ADVISORY** is **RESCINDED**, effective immediately.

Thank you for your patience and cooperation.
